

Full Circle - Live Party Band

Full Circle was formed in 1995 by professional musicians whose aim was to put together the ultimate function band.. Full Circle appear at major function venues, including London's most prestigious hotels.

The members of Full Circle have much international experience performing on stage, television and radio and feature on many recordings both home and abroad.

The band can be tailored to suit any requirement.

Primarily the band is a five piece ensemble but can adjust the format as described below:-

All line ups come complete with their own lights and PA system and compilation CD's to cover the bands breaks.

The Five Piece

Female singer, Guitar/vocals, Keyboard/Vocals, Bass and Drums/Percussion.

For corporate events and larger weddings we recommend the five piece or larger. This provides, visually and musically, an exciting prospect to offer your guests.

The Trio

Female Singer, Guitar/Vocals, Keyboard/Vocals with backing tracks.

For the smaller event the trio is ideal. requiring a smaller performance area and total control over the volume. This format is supported by sequenced rhythm tracks created by members of the band that offer full arrangements of the repertoire.

For a truly dynamic sound:

A Saxophonist, horns or a combination brass section can be added for an additional fee.
