

## The Bar Wizards

Neil and Neil, or "The Barwizards" are international celebrity bartenders to the rich and famous, who were finalists in Simon Cowles "Britain's Got Talent".

They have devised a show which is leaving audiences astounded by their technical skill and sense of fun. After performances in over 50 countries over the last 10 years the BarWizards decided to develop a new flair show, hoping to bring something new to the entertainment market.

The flair extravaganza see the BarWizards perform a "Tom Cruise" style flair show, choreographed to music. Flipping, spinning, throwing, catching, shaking and pouring their way through a jaw-dropping routine using bottles, tins, glasses and bar equipment, in this unique act.

The show is a real crowd please - and is perfect to use as an atmosphere enhancer, changing the mood of an event by whooping your guests into a frenzy. The act is most suitable as an after dinner cabaret stage show, perfect for adding something memorable to your event, attracting attention at PR events.

The show can be performed almost anywhere, provided the stage is a reasonable size and audiences can see. You have the option of choosing an interactive addition to the show - where a guest will be picked to join the BarWizards on stage and help with their flair routine.

There is no expensive set to build, and the BarWizards are happy to perform at anytime, in any country, and guests of any age and gender will all appreciate this fun, visual spectacle.
