

## ***The Groove Factory***

The Groove Factory is a high energy party band performing classic soul/dance music from the 70's, 80's, 90's and to date. The regular band is a six piece unit including female and male lead vocals.

The band is an excellent exponent of the type of music it plays simply because the musicians themselves are devoted to the style. There is genuine enthusiasm within the band to deliver a quality performance and try to, and recreate the music in its original form. No pre-recorded tapes or backing tracks are used which guarantees an authentic 'live' feel to the performance.

The Groove Factory is dedicated in its quest to create a party atmosphere wherever it performs and believes close interaction with the audience an essential ingredient for a successful evening. Comprising experienced professional performers, the band's superb delivery guarantees a vibrant party atmosphere and busy dance floor!

We are proud to say that most of our engagements come as a result of personal referral that is from those who have seen the band in action. This is, of course, the very best testament to our efforts.
